If I Were a Mayor, I Would....

If I were a mayor, I would fix broken and old roads. If the roads are broken, then the vehicle that goes over it can be damaged. I also want to clean the roads because there are so many leaves and litter on the sides of the roads and on the sidewalks. Everyone in the city should have a safe and clean road to travel on.

If I were a mayor, I would build more playgrounds and parks for people to enjoy. I want children to have fun. I would want families to be healthier and have fun and a safe place to enjoy and relax. I would also build more hiking and biking trails around the city.

If I were a mayor, I would build a bigger and better library for everyone in the city. This library would have many copies of the newest books. They would have different classes and workshops for the community. This would help educate people.

If I were a mayor, I would want everyone to be safe and healthy. If people in my community are sick, I would send people to help them. We should help each other and work together to make our community the best. I want everyone to feel happy and healthy too. We can all look out for each other.

If I were a mayor, I would do the best I can to make my community feel healthier and happier.

I want my city to be the best city in all of America!

Sincerely,

Asma Aulakh
